CHIEF CHAMBER

This chamber is used for higher authorities of the RED STONE.

VISITORS PARK

Visitors Park is the waiting Area for our visitors, parents and guardians, where they can wait while we provide information / required service to them.

PLAY AREA:

Play Area is specially made for kids who visit us with our visitors, while the kids can Enjoy playing while the parents or guardian get the required service from the support desk. At red stone we believe providing a proper play area is beneficial to keep the children fit and healthy. A play Area Always brings positivity with in children, this will impact on the child's emotional, Social, Physical and mental growth. while the enjoy their play time at the play area the parents can also see they socialize with other kids and we are sure that the kids will feel Home.

TODDLERS:

At toddlers the children are provided a year of education by allowing them to learn through fun activities, and later on after a period of time we will help them to use materials to help with writing and drawing to make our toddlers feel home.

TINY TOTS:

Here at tiny tots are provided with material-based learning, using technology and innovative method of teaching, along with this we provide activities which are structured to prepare children to learn about managing themselves in a class room, where in they are given colorful books to help them get hands on holding pencil or crayons, storytelling to help them stand out and speak which will help the child to frame words and sentences, they will guide with trained teachers. we offer this kind of learning with fun activities so that the children will fall in love with learning.

LOVELY LANGUAGES:

The child to adapt changes, here at red stone we have come up with this idea of Breaking Barriers of language to our kinder which will boost up their verbal skills. We at Red Stone are sure they are going to have a blast when introduced to different languages and also show signs of enhanced creativity and mental flexibility to multi task. Introducing the entertainment immersion method of teaching languages will develop toddler's natural love for learning.

CONFIDENTIAL ZONE

This class room is dedicated for our school authorities to manage their day-to-day activities.

CAFETERIA

A have a kitchen area along with bunker beds for a nap time for our RED STONE kinder, when they need a nap or when they feel unwell.

MATH'S MIND

Our math mind class helps young children develop their mathematical thinking. Here our children will be learning only numbers. In math's mind room the children are provided with opportunities to become familiar with sorting, matching, ordering, sequencing and counting with the support of an adult. If needed children are provided and are encouraged to use the vocabulary of mathematics by allowing them to identify objects by recognizing the shape, numbers etc. We use number rhymes, games, imaginary activities, picture books to help children become aware of numbers. This will help them use simple mathematical operations such as adding and importantly help them recognize the numbers and shapes.

SCIENCEPORIUM

EVS PLANET Room is where our little ones are going to learn about environment. This is what makes it important to spark interest with in our babes & tots towards caring and protecting the environment. Here at Red Stone, we believe not only in Theoretical training but also practical learning gives our children better understanding of living and non-living things. EVS planet room also helps encourage kindergartener to develop their curiosity & prompts them to make observations of the world around them. Our science curriculum provides a comprehensive education that will help your young one to reach all their science objectives; they will learn important science & social concepts through fun and interactive activities led by animated characters. According to generation level RED STONE has planned to introduce basic computer education for the kinder.

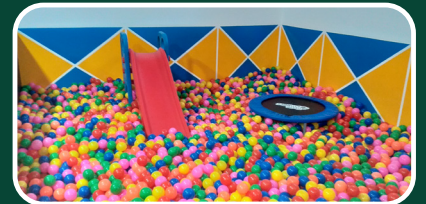

KNOWLEDGE TREE

Red stone introduces knowledge tree a school library placed for 2 to 6 years of age. Kids will love visiting the school library as it gives them a chance to explore so many colorful sections of books that will open the world to them. The picture books, story tale books etc will develop their creativity and imagination skills.

KIDS GALAXY

An area where the kids can frequently connect with a spacious place to cater all ages, we have artistic walls and structures here at the kid's galaxy. Kids galaxy is also used for Assembly, physical education, Parents teachers meet and functions.

THE ROYAL FUN

This is going to be a dedicated play area for our RED STONE kinder. Filled with fun activity games such as ball pit, sand pit, play tunnels, slides, play tent house etc.

ART AND CRAFT

Art Land is arranged to give little fingers some fine motor practice as we teach them the basics of Drawing, Painting, sticking and crafting, which is good for the brain development of the kids. When kids draw their art work they basically use their fingers in doing their art work which develops their motor skills as they use small muscles of their hand while using paint, color or glue. This also helps them develop their vocabulary while they talk about their art work, this will develop their communication skills. Art allows kids to show their creativity and express their feelings through colors and paints. It fosters mental growth. By indulging kids into art and craft activity it will create a sense of achievement in kids and they feel pride in their work which builds self confidence in them.

MAGIC AQUA:

At Red Stone we want our children to enjoy while they learn, so introducing 'MAGIC AQUA' swimming pool. Water play allows children to explore and interact with each other and also swimming for toddlers provides a gentler type of exercise that will involve their entire body and improve physical fitness. This is a great confidence builder and it will develop belief in their athletic and social skills especially when they are a part of a team. Ensuring the safety of the toddlers we have experienced staffs to supervise them during the activity and not only keeping safety as a key element, the pool will be filled with water toys to make it fun.
